

Freight+ Carrier Ship-Via Codes

Freight+ can use Ship-Via codes along with Carrier name to automate the shipping process. If you use our Ship-Via codes the shipping clerk will not be prompted for the type service. This feature saves keys strokes and time.

Note: The operator can override our Ship-Via codes if they determine the package should be shipped using another carrier service. Just click on the carrier name and service on the carriers tab and the Ship-Via will automatically be updated to the new service

Use the Ship-Via codes in all Freight+ shipments.. Either shipping from the Freight+ API, Server, Accounting System Interface, Batch, ODBC etc. The Ship-Via codes save time and automate the shipping process by pre-selecting the carrier service and any additional options.

Format of Ship-Via should be the Carrier Name followed by the Service code and then any special Services indicators.

Example:	"UPS GRNC"	UPS Ground Commercial
	"FEDS"	FedEx Express Saver
	"UPS NXTS-S"	UPS Next Day Air with -S Saturday Delivery
	"USPS PRIM-NC"	US Postal Priority, -NC No Charge to Customer
	"UPS NXTS+S"	UPS Next Day Air with +S Signature Required

SPECIAL SERVICE FLAGS

There are several dash – flags that you can place at the end of the service code to tell Freight+ that this package has additional instructions.

Example: UPS GRNC-S (UPS Gound Commercial Saturday Delivery)

"-BOL"	Bill of Lading Shipment
"-NC"	NO Shipping Charges Charged to Customer
"-C"	Collect Shipment
"-3"	3rd Party Billing
"-P"	Bill Shipper (Pre-Paid) even if account is set to bill 3 rd /collect
